North American Distributor of
EMF Protection Products from

Shielding Fabric << Swiss Shield Naturell>>

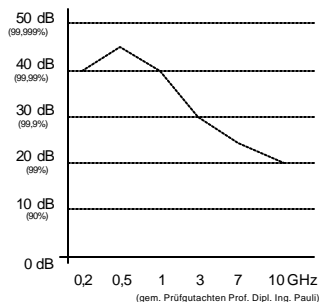

Product :

SWSH-N

- Used for shielding large surfaces (walls and windows) from high frequency electromagnetic waves (microwaves)
- **99 %– 99.9 %** effective in shielding RF, 200mhz to 10 ghz
- Shields cell towers, cordless phones, security systems, wireless computer gear and more
- Smooth, sheer fabric, easy to work with, washable
- Sheer **natural cotton fabric**
- Ideal for curtains to shield windows or bed canopies

Characteristics

Swiss Shield Naturell is a decorative, unbleached, sheer white cotton fabric. It has excellent high frequency shielding characteristics. It is used, preferably, for curtains to shield windows, to cover part walls and for canopies. To ensure highest performance fell seams (overlapping), should be used. We offer custom made curtains for your specific needs.

WARNING: Swiss Shield Naturell reflects high frequency electromagnetic waves and therefore **must not** and **cannot** be grounded.

Technical Data

Width/Length :

250 cm (98.4 inches) / by the meter or ft

Color:

Sheer, White

Characteristics:

Washable, colourfast, antistatic

Care:

Hand wash in cold water, hang to dry

Certificates:

MIL-STD 285, NSA 65-6, Öko -Tex Standard 100+1000,

Shielding characteristics:

35 – 20 dB (99.9%– 99.0%) at 200 MHz to 10 GHz
